Bill Jacoutot has a proven track record of success after success. For thirty-one years, Bill has excelled on every level of coaching, leading his team to record setting performances.

As a wrestling coach at Spencerport High School (N.Y), Bill was named the best in the United States—winning the coveted “National High School Coach of the Year” in 2008. This culminated thirty-one years of development, honing and implementing the structured, repeatable methodologies that have earned the name “The Pinnacle System.”

There is no question; Bill Jacoutot has set the bar for the sport of wrestling in New York State. “Through his skills as a communicator, motivator and instructor, Bill has created a wrestling dynasty at our school that has been virtually unbeatable”, said Spencerport (N.Y) Athletic Director John Pelin. He has published articles for Scholastic Coach and Athletic Journal Magazine, and has created one of the greatest systems designed to make any athletic team or organization successful. He has spent the last ten years speaking, teaching and consulting on how to leverage success in business through the foundation of athletics.

His mixture of passion, humor and story-telling challenges his listeners in exciting, entertaining and meaningful ways! Bill’s energy, intensity, commitment, and passion produce lasting results for your business, organization, or school.

Other highlights and accomplishments include: Coaching five nationally ranked teams, amassing a 387-34-2 dual meet record, seven New York State championships, twenty-one sectional titles, twenty Monroe county tournament titles, and twenty-three divisional titles. Bill has coached eleven of his wrestlers to a New York State title and thirty-four to a top six place finish. Thirty-nine times he has been recognized as the “Coach of the Year” at the county, sectional, state, regional, and national levels.
